Messages
Music

Navigation APPs
and many other APPs

Customise Apple CarPlay with compatible APPs

You can customise the layout of compatible apps directly from the iPhone's settings menu

With iOS 14, Apple CarPlay will support new categories of apps, such as those for finding parking spaces, charging electric vehicles and those developed by car manufacturers, making it even more helpful to the user.

PhoneLINK Function

VM046

Thanks to the PhoneLINK function the screen of Android Smartphones is comfortably displayed on the Mediastation monitor!

Android Smartphone with operating system 4.2 or higher

NAVIGATION APP on the Monitor

Thanks to the PhoneLINK function, the user can display his favourite navigation APP comfortably on the monitor.
